APPLICANT'S AFFIDAVIT

I, John C. Turmel, residing at 68 Brant Ave., Brantford, Ontario, make oath as follows:

1. I have a degree in Electrical Engineering from Carleton University in 1976. <http://SmartestMan.Ca/diploma.jpg>

2. In 1974, Carleton offered the Math 69:140 course unique to Canada called the "Mathematics of Gambling" taught by Dr. Walter Schneider who had also taught me my second-year engineering mathematics. I took it as an option and then became Teaching Assistant for the next 4 years.

3. I learned to count cards and spent 5 years beating Las Vegas in the late 1990s until I got barred. If you Google for Great Canadian Gambler, I come up. I was also dubbed "The Professor" at the Trump Taj Mahal Poker Palace in Atlantic City and had the highest Holdem Poker bets-per-hour win rate on the planet for 25 years. I was accepted as an Expert Witness on the Mathematics of Gambling in Federal Tax Court of Canada.

4. Given I have the same education as Star Trek's Science Officer Spock who knew the math to figure out the winningest way to go, in 2015 I claimed the site SmartestManOnEarth.Ca, now <http://SmartestMan.Ca> for short. My "Miracle Equation" for Inflation = Interest / (Principal + Interest) resulted in the first alternative time-based LETS community Currency. I was inscribed in the Guinness Book of Records in 1997 for "most elections contested" and my speech at the United Nations in 2000 resulted in Millennium Declaration C6 to "restructure the global financial architecture" with "an alternative time-based currency."

5. So it makes sense that when WHO Apple Oranged the world by miscomparing the Covid in-hospital 3.4% CFR Case Fatality Rate not to the Flu's 10% CFR but to its hundredfold smaller out-of-hospital 0.1% IFR group Infection Fatality Rate, no doctor or scientist caught trick, or spoke up. Only Canada's Mr. Spock brought the trick to the Court's attention in seeking a declaration that Covid Mortality Hyped Hundredfold was a false alarm.

VEXATIOUS LITIGANT

6. I have instituted many litigations over my political career seeking righteous relief; none seeking to vex:

1) ENFORCE EQUITABLE FREE-TIME BROADCASTS

Actions to enforce Broadcast Act regulations that free-time political debates be shared by all rival candidates on an equitable basis, quantitatively and qualitatively. When a court ruled my getting zero time was equitable, was it to vex to seek another court at the next deprivation that would not rule zero time is equitable?

2a) STRIKE GAMING HOUSE LAWS

After being repeatedly busted trying different loopholes in the gaming house laws, was it to vex to keep defending my charges in the courts?

2b) CHARGE SIMPSONS FOR SELLING CARDS

When I was charged under the ancient "possession of the gambling device," the cards, was it to vex to lay a charge against Simpsons for possessing and selling the same gambling devices or to show the double-standard I was facing?

3) STRIKE INTEREST ACT

After realizing interest on bank loans was a fee for the privilege of participating in a gamble, the mort-gage death-

gamble, in contravention of gaming house laws, as well as Biblical prohibitions on usury and the physical impossibility of all borrowers repaying both the principal and the interest when only the principal had been created and loaned out, was it to vex by helping those debtors fight their foreclosures in the courts on those grounds?

4) STRIKE MARIJUANA PROHIBITIONS

After learning there had never been an overdose death from the use of marijuana, was it to vex by launching repeated actions to strike down cannabis prohibitions in the Criminal Code? <http://SmartestMan.Ca/stay4k.jpg> shows my appeal resulted in 4,000 charges being stayed.

5) GET BACK 18,000 CANCELED MEDPOT EXEMPTION PERMITS

After Federal Court had struck down the medpot grow permits of half of Canada's 36,000 exempted patients, was it to vex by helping 400 patients ask for their permits back?

6) DAMAGES FOR MARIJUANA PERMIT PROCESSING DELAYS

After learning patients who submitted their medical document to a Licensed Producer got their cannabis couriered the next day but those submitting it to Health Canada for a grower permit were stalled up to 11 months, was it to vex by helping them seek damages for lost rent on the unused grow-op and the cost of buying their medication on the street during the processing delays?

7) STRIKE 150-GRAM PUBLIC POSSESSION CAP FOR HIGH DOSERS

After Federal Court imposed a 150=gram cap on public possession of cannabis, the B.C. Garber decision granted 4 high-doser patients a 10-day carry at full prescription even if more than the 150-gram limit. One had a prescription for 166 grams/day. Was it to vex that I helped About 4 dozen Plaintiffs to reach Federal Court seeking the same 10-day public carry? Judge Brown sent it for trial and granted the Lead Plaintiff a 10-day carry pending trial and asked why not the same for the rest. There was no intent to vex, just correct an unjustified court-imposed restriction.

8) COVID MORTALITY HYPED HUNDREDFOLD FALSE ALARM

7. When I learned WHO had used an Apple-Orange miscomparison of two different mortality rates to impose lockdowns and jabs to escape, was it to vex by helping those suffering from lockdowns to seek a declaration that the Covid Mortality Hyped Hundredfold was a False Alarm and seek damages?

8. On Nov 9 2022, despite all my actions having righteous intent, Federal Court declared me a "vexatious litigant" and ordered me not to help any victims any more.

9. My Memorandum for Leave to Appeal mentions all the facts I presented that were deemed "not facts" by the lower court.

10. On May 11, the Rt. Hon. Richard Wagner, P.C., Chief Justice of Canada; the Hon. Andromache Karakatsanis; the Hon. Suzanne Cote, the Hon. Russell Brown; the Hon. Malcolm Rowe; the Hon. Sheilah L. Martin; the Hon. Nicholas Kasirer, the Hon. Mahmud Jamal; and the Hon. Michelle O'Bonsawin

dismissed without reasons and with costs the Application for Leave to Appeal for a declaration that the Covid Mortality Hyped Hundredfold was a false alarm.

NO PENSION FOR UNVAXED?

11. Senate Bill S.233(c) is to replace my pension with a Guaranteed Basic Income if I qualify under the health requirements.

IN THE SUPREME COURT OF CANADA
(ON APPEAL FROM THE FEDERAL COURT OF APPEAL)

BETWEEN

John Turmel

Applicant
Appellant in appeal

and

His Majesty The King

Respondent
Respondent in appeal

APPLICANT'S STATEMENT OF ARGUMENT
(Pursuant to S.73(3)(d) of the Supreme Court Rules

1. The exceedingly rare, actually unique, circumstances are that the world is threatened by being tricked into taking an experimental gene therapy. it's not safe nor effective at preventing infection or transmission so it's not a vaccine but a dangerous gene therapy and has been imposed by lies and trickery. Smartest Man is bringing this unique circumstance to the attention of the Court.

2. I did not bring my credentials to the attention of the Court in my Leave Application because I didn't want to flaunt my

technical superiority If I didn't have to. I hoped the Court would grasp the statistical analysis I had presented without my having to be brain-slapped in right direction. Dismissal of my Application now compels me to do so.

3. I showed respect to see if the Court could follow the math on their own. Bright kids good in math become scientists and engineers; bright kids not good in math become lawyers and actors. Now that the Court has failed, SmartestMan has to brain-slap the Court in the right direction.

ADVERSE EVENTS NOW EVIDENT

4. My Affidavit shows the dangers of the experimental gene therapies have now become evident. With thousands collapsing of heart problems on video since the vaccines, and many more not on video, with miscarriage and still-birth numbers through the roof, with massive increases in excess deaths around the world, only the Canadian courts could have and can still end the faux pandemic it by declaring the Covid pandemic a false alarm because only Canada's Mr. Spock noticed the Apple Orange trick and brought it to the courts' attention.

5. But you have sustained a decision that says IT IS NOT A FACT THAT:

- WHO comparing the Covid CFR Apple to the smaller Flu IFR Orange is off a hundredfold;

- WHO and Wuhan have both reported no symptomless spread while citizens social distanced and wore masks;

- PCR tests were set too sensitive to 45 doubling cycles rather than 25, too sensitive by a millionfold that Tanzanian President could submit papaya, sheep and goat with all testing positive;

- CDC changed the Death Certificate Guidelines on March 24 2020 from "died from" to "died with" Covid and falsely hyped death numbers while admitting only 6% died from Covid alone;

- France lost only 0.8% of 4,000 patients, saved 99.2% using 1 gram of HydroxyChloroQuine while the Bill Gates' Oxford Recovery HCQ test lost 25.7% of 1,500 patents, saved 74.3% by overdosing with 9.6 grams of HCQ, 32 times worse than France. If HCQ worked, no Emergency Use Authorization for vaccines so Lancet and New England of Journal of Medicine published a bogus survey showing HCQ to be dangerous and then retracted. But that survey is still cited.

6. Recent articles in the Affidavit show most of the allegations deemed not to be facts have now proven true. And with every death of someone who may not have taken the jab if they'd known Covid was a false alarm, I blamed the Court.

7. How can you let it go down in history that you refused to declare a false alarm because you deemed these events and actions not as facts? Try explaining to upcoming generations that you didn't see how comparing CFR and the hundredfold too small IFR "mortality rates" was deception to trick the world into lockdowns and taking the jab to get out.

8. The Covid Pandemic is being called the greatest genocide in medical history. Stories of adverse effects and those who

died suddenly abound. Excess deaths are the key metric and have risen around the world. There are millions of excess deaths in vaccinated nations, not in unvaccinated nations, which could have been avoided if the Court had known what makes a fact.

9. You are the only court in a position to help because our world's Mr. Spock is raised and trained in Canada. So you had the chance to let them world know there was no emergency and failed.

10. Senate Bill S.233(c) to replace my pension with a Guaranteed Basic Income if I qualify under my health requirements. This could permit government to coerce me to take the jab by making it a health requirement. Could government be that sleazy?

11. Justin Trudeau, while saying the vaccines are "safe and effective" also acknowledges the vaccines do not work when he bans the unvaxed from travelling on the same public transport to threaten the protected. Which is an admission that they are not protected. And still he pushes the vaccine. So, yes, government could be that sleazy.

12. Canadian courts could have saved us but did not and now have the blood of millions maybe hundreds of millions on their hands. Though a single judge may be faced with the inducement to "Take this million dollar bank account" and threat "Or we'll kill your family!" but this Court has 9 judges. Together you could right so great a wrong that the whole world would stand vigil over your well-being.
