

**\$2 Federal Court Apple Orange Resistance S.7 Air Travel Ban challenge
INSTRUCTIONS**

<http://SmartestMan.Ca/c19.htm> has information on all action to declare Covid Mortality Hyped Hundredfold a False Alarm. The \$2 is the Federal Court filing fee, not for me. <http://SmartestMan.Ca/c19clist.pdf> is the list of Plaintiffs.

The Covid Mortality threat is a false alarm! Doesn't it smash the mandatory vaccine paradigm to prove the Covid Mortality Hyped Hundredfold <https://www.amazon.com/dp/b09dfgld8d> threat was a hoax? "I refuse the jab because the Covid mortality threat was a false alarm by comparing Covid CFR Apple to the hundredfold too small Flu IFR Orange."

<http://SmartestMan.Ca/c19csc.pdf> Statement of Claim challenging the air travel unvaxed ban to be filed in Federal Court of Canada asking to prohibit Covid Mitigation Restrictions or exempt me from them on grounds WHO compared the C19 3.4% CFR to the Flu's 100-times too small 0.1% IFR to exaggerate the Covid threat by a hundredfold. <https://youtu.be/CvXR6N-vjcA> is my video reading it. <https://youtu.be/NnWLjNQoWQk> update

I've launched court battles with templates many times. <http://SmartestMan.Ca/pasttemplates.pdf> Twice before we've swamped the courts in protest with almost 400 self-Plaintiffs out of under 20,000 aggrieved patients! How many have been aggrieved by Covid restrictions? If 400 aggrieved plaintiffs freaked out the Crown and Registry, twice, imagine if 4,000 or 40,000 out of the millions aggrieved by Covid restrictions seek damages too? Sure, protestors can violate restrictions and get arrested or you can ask a judge in a zoom call for an exemption from these restrictions on this minor cold, even if made in a bio-lab. Can you think of a better way to get the message heard with no danger of criminal charges to yourself than to present proof it's a hoax to a judge with power to fix things?
