

WANNABE MESSIAH MANIFESTO

I'm your Messiah! \$1000 to prove me wrong

Second Coming of Jesus The Tekton is Wannabe Messiah John The Engineer

MESSIAH NEEDED

I write to Pope Francis first because I was born a Catholic and hope you will spread the word that Wannabe Messiah John The Engineer is here to finish the "On Earth as in Heaven" project that Jesus The Tekton explained in his parables.

If there was ever a time in history when humanity needed to be saved from the Forces Of Evil, this is it. Facing multiple looming catastrophes, Poverty, War, Super-Viruses, robot AI soldiers. The world needs a Savior who knows how to use the Jesus Program for Heaven to save everyone everywhere! Luckily, Jesus said only one change could turn the Hellish Alleys of Earth into the Heavenly Gardens of Eden.

Many expect the Messiah to be Jesus The Tekton from 2,000 years ago riding his mule down from the clouds to fulfill his "On Earth As in Heaven" promise to the whole world. Why could there not be other human tektons today trying to complete his saving mission? James Christ? Jason Christ? Jerry Christ? Jed Christ, Joe Christ, John Christ? Jude Christ?

JOHN THE ENGINEER

I am John The Engineer, John the Tekton of today. I have decoded the Differential Equations in his parables to show how Jesus The Tekton intended to institute God's will be done on Earth as in Heaven. No one has done more over the past 45 years to institute that Jesus The Tekton's will be done on Earth as in Heaven than John The Engineer.

<http://SmartestMan.Ca/poembible>

Jesus The Tekton Christ laid out the blueprint of his Mission to save Mankind but did not have the mass communication necessary to install it world-wide. Today, John The Engineer has enough potential to save the world by the Jesus Program for Heaven going viral globally.

A) MISSION

I must first convince you of what Jesus The Tekton Messiah's true mission to save the humanity was? What in the world's programming did he want to upgrade?

B) QUALIFICATIONS

I must then convince you I have the extraordinary credentials necessary to install the Jesus program globally. With your help, Gardens of Eden can be engineered on Earth as in Heaven.

C) EXPERIENCE

I must last convince you that Wannabe Messiah John The Engineer has done more to complete the installation of Jesus The Tekton's "As in Heaven" program than anyone else other and needs your boost to complete the transformation.

EXEGESIS

The following is my exegesis relying on those points to apply for your approbation for Wannabe Messiah John The Engineer to complete the mission of installing the "As in Heaven" software of Jesus the Tekton.

A) MISSION: "ON EARTH AS IN HEAVEN"

Matthew 6:9 is the The Lord's Prayer: Our Father... Thy Kingdom come, thy will be done, on Earth as in Heaven.

Jesus The Tekton Christ, Mohammed, Nehemiah, Buddha, great Hindu, Sikh, Bahai and Rastafarian saints all diagnosed the same problem afflicting the world and prescribed how God's will should be done "On Earth as in Heaven." Without mass communication, they could not have global impact to save everyone everywhere. But Jesus The Tekton left enough clues in his parables for Tektons of today to decode the blueprint for his "As In Heaven" program to fix the world!

If the greatest saints were to have a second coming today, how would these pillars of their community use the latest technology and opportunities at their command to compel power to save the world. Given Jesus said so much more on "Doing on Earth as in Heaven" and uses more math, he will be my example. But I presume all the sages would do the very same to engineer "On Earth as in Heaven" if they could as their devotees now should.

WHY JESUS SPOKE IN PARABLES?

In Matthew 13:10: The disciples asked: "Why do you speak in parables so the people do not understand?" He replied, "The knowledge of the secrets of the Kingdom of Heaven has been given to you, but not to them for they will forever be hearing without hearing and seeing without seeing or understanding. 'Whoever has abundance will be given more. Whoever does not have abundance, even what he has will be taken from him.' This is why I speak to them in parables."

This verse is found 6 more times in Scripture, (2) Matthew 25:29; (3) Luke 8:10; (4) Luke 19:26; (5) Marc 4:25; (6) Thomas 41; (7) Apocalypse of Peter (VII,3) 83:27. No other statement is quoted more times in Scripture! But what does it mean?

USURY VERSE FROM PARABLES OF TALENTS & MINAS

In Matthew 25:29, the Parable of the Talents says: "The kingdom of Heaven will be like" and then describes the "Master who reaps where he does not sow" lending talents of gold to 3 servants. Two successfully paid back double but the third only returned what he had received stating "You are a hard master reaping where you do not sow, I was afraid to lose what was yours so I buried it. Here's what's yours." The Master rebuked: "You should have repaid what was mine with usury. To him who has abundance will more be given and from him with no abundance, even what he has will be taken away. Take his Talent and give it to him who has plenty and throw him into the alley where men weep and gnash their teeth."

Men in the alley are weeping over being broke and gnashing teeth about not being able to do anything to escape their fate. Slavery! But who is enforcing the Master's decree to take the Talent from him and throw him into the alley of tears? It has to be the surviving majority of slaves who are their own enforcers.

Jesus spoke in riddles so they would not understand because it was lawful for the master to reap where he did not sow taking usury he did not earn. "To him whose Balance is positive will more be given and from him whose Balance is negative, even what he has will be subtracted." The Usury Verse is a Differential Equation describing how interest affects bank accounts over time. Banking on Earth as in Hell takes from the poor who don't have enough to give to the rich who already have too much.

HEAVEN LIKE HELL

Why did Jesus say the Kingdom of Heaven is like the Kingdom of Hell where the Master has alleys where those who don't pay their usury weep and gnash their teeth for disobeying the law: "Who has abundance gets more and who has none loses more?" By saying "Heaven is like" and then describing Hell, he tricked the wicked into believing he was the master who reaps where he does not sow, that he approved of usury. Rulers would never have allowed an anti-usury passage to survive. Making the loansharks think Jesus was okaying their usury kept the parable from being deleted from the Bible, unlike other alterations and deletions. His message was not censored so I could decode it 2,000 years later.

DIFFERENTIAL EQUATION FOR INTEREST / HELL

The Usury Verse is the most repeated in all scripture to describe how interest affects bank accounts over time. "To him whose Balance is positive will more be given and from him whose Balance is negative, even what he has will be subtracted."

$dB/dt=i*B$ is the basic Differential Equation for Positive feedback:

The change (d) of Balance "B" over the change (d) in time "t" is the interest rate "i" times the Balance "B." Over time, the positive will get more positive and the negative more negative, taking from the poor to give to the rich. If you have more than you need, you gain more. If you have less than you need, you lose more.

The Usury Verse $dB/dt=i*B$ is the Differential Equation for our Hell.

LAPLACE TRANSFORMS

The Laplace Transform of that Differential Equation $dB/dt=i*B!$ is " $1/(S-i)$ " from which can be drawn an electrical control system. The negative sign indicates positive feedback that grows explosively and a positive sign indicates negative feedback that fades away.

See the Control System as a box titled " $1/(S-10\%)$ " with an input on one side and an output on the other. The box will change what goes in to produce what comes out. Laplace Transforms use imaginary numbers and $1/(S-i)$ is easier to work with than the $dB/dt=i*B$.

INPUT <http://SmartestMan.Ca/cont.jpg>

Input \$100 to $1 / (S-10\%)$

Next year, with \$10 added for 10% interest on \$100 = \$110.

Next year, with \$11 added for 10% interest on \$110 = \$121.

Next year, with \$12 added for 10% interest on \$121 = \$133.

After cycling 7 times, it doubles. Exponential. Another 7

Years, another double. 7 more years, another double. Doubles every 7 years.

To him with abundance shall be given 10% more and from him without savings, 10% will be added to his debt to take away from what he has. The Laplace Transform for the system that takes from the poor to give to the rich is " $1/(S-i)$," the Laplace Transform for Banking as in Hell. Call it the S-i system for Hell.

USURY IS NOT EXCESSIVE INTEREST

Yet we are told "usury" is "excessive interest!" Ezekiel 3:18 explains the wicked is he who takes excessive interest or lends at usury:

Ezekiel declared that usury and interest,
Could have a different effect, there was a simple test.
If interest demanded is of something that can breed,
Such interest is payable and not sin I concede.
So if you lend a hundred head and ask to get two more,
That might not be excessive action that he would abhor.
But if you gain all of the calves and he still owes you some,
That would be judged excessive. That is more than maximum.
And if the interest is on some silver or some gold,
It's usury because there are no babies to behold!
It's interest if principal can breed to multiply,
It's usury if principal cannot so classify.

Sadly, the world accepts that "usury" means "excessive death," not reasonable death. It makes sense that the Great Canadian Gambler would have spotted the Death-Gamble.

PAUL CORINTHIANS II 8:14 IS BANKING AS IN HEAVEN

The parables of the Talents and Minas describe how abundance is treated in the Kingdom of Hell but not how abundance is treated in the Kingdom of Heaven? Paul Corr II: 8:14 explains what should be done with savings in Heaven:

"Your abundance should at the present time be a supply for their want so their abundance may later be a supply for your want. In that way, he who gathers much doesn't have too much and he who gathers little doesn't have too little, that there be equality."

$dB/dt=0$ is the Differential Equation for Heaven. Change in Balance "dB" over the change in time "dt" equals zero." In Heaven, nothing is taken from the poor to give to the rich. In Hell, he who gathers much gets more and has too much and he who gathers little loses more and has too little, that there be inequality! Interest on Balances turns Heaven into Hell!

Laplace Transform of $dB/dt=0$ is $1/(S-0\%)$, " $1/S$," the S compared to the S-i accounting.

INPUT <http://SmartestMan.Ca/contc.jpg>

Input \$100 to $1/(S-0\%)$

Next year, with \$0 added for interest on \$100, still \$100.

Next year, with \$0 added for interest on \$100, still \$100.

Next year, with \$0 added for interest on \$100, still \$100.

No number of cycles can make it double. The debt stays Linear.

To him with abundance shall be not too much and to him without savings shall be not too little. $1/S$ is the Laplace Transform for Banking as in Heaven. Heaven is S, Hell ia S-i!

PARABLES BECAUSE OF INTEREST?

Jesus responded "I speak to them in parables because Big Money usurers rule the world? Heaven is like Hell but without the interest that makes debts grow exponentially.

Who really thinks Jesus as Master of Heaven would have "alleys where men weep and gnash their teeth." He spoke in riddles so only those initiated in the secrets of God's Kingdom of Heaven would understand his mission to abolish usury that make Hell into Heaven. Understanding this Usury Verse repeated 7-times in scripture is the key to understanding the secrets of the Kingdom of Heaven like Hell. Banking as in Heaven, or as in Hell.

ABOLISH INTEREST FOR BANKING AS IN HEAVEN

- In Thomas 95, Jesus said:

"If you have money, do not lend it at interest."

- In Koran 2:275, Mohammed said:

"If you have money, do not lend it at interest."

- In Nehemiah 5:10:

"Let the exacting of interest stop." (recently deleted)

- In Ezekiel 18:5:

"Suppose he has a son who takes excessive interest, And lends at usury. He'll die! His actions I detest." (Interest is babies from cows, usury is no babies from money)

- In Majjhima Nikaya Sutta 11 Buddha says:

"Wrong livelihood is charging interest."

- In Vasishtha, Chapter 2, Part II, verse 40 of Hindu laws:

"Of Aryas say Brahmans don't take interest"

- In Life Of Guru Nanak: S.4 Chapter 5, Sikhism says,;

"A shopkeeper, for usury, should not be left alive."

- In ancient Ethiopian Kebra Nagast, 90 Rastafarians say:

"Blessed giver shall ye be, Without the usury, nor even loans! to those needy."

- The Tablets of Baha'u'llah, the Faith Bahai do hold:

"It's usury despite its fair semblance of lawfulness."

The vision of all the saints was to reach Eden by replacing "Banking as in Hell with Usury with "Banking as in Heaven without Usury." All sought to turn Hellish Earth into Heavenly Eden but had no chance in their low-tech era. Getting computers to deliver usury-free credit to all would take mere days today. Interest is abolished and replaced by Service Charge.

B) WHAT WOULD JESUS DO TODAY?

If Jesus the Messiah appeared in today's world of high tech and purported democracy, how would the Christ try to engineer his "Banking on Earth as in Heaven" vision?

(1) POLITICS?

Jesus, King of the Judeans, was crucified by Romans as as "King of the Jews." He had political aspirations. The King of the Jews wanted to give Israel Banking on Earth as in Heaven. So if he came a second time, would he run in elections to get the political power to legislate banking be done "On Earth As in Heaven?"

(2) PUBLISH DIFFERENTIAL EQUATIONS?

Would he publish the Differential Equations for Heaven and Hell? He did get his Usury Verse for Hell repeated so many times that it stopped the Wicked from deleting his message allowing me to get it a Laplace Transform and Control System over 2 millennia later.

(3) PROTEST?

Would he wield a placard outside money-lender banks to protest "Banking with interest as in Hell" and promoting how to get "Banking without interest as in Heaven." Lots of banks to picket and no laws preventing it these days.

(4) ATTACK THE WICKED?

Would he attack the Wicked with a whip like he did in the temple? He didn't attack the liars, thieves, prostitutes, only the bankers. So it's pretty clear whom he considered were the Wicked. A whip didn't do much good then and wouldn't do much good now. Using a gun in a bank would also be frowned upon and punished. Bonnie and Christ?

Would he ask a judge to engineer Banking on Earth as in Heaven by ordering bank computers restricted to a pure service charge and the interest charge abolished?

Would he help the victims of Banking in Hell in the courts to fight their foreclosures and evictions into the alley where men weep and gnash their teeth? No better way to oppose the banks?

(5) COMMUNE FOR BANKING AS IN HEAVEN?

As a last resort, would he set up a commune of The Poor where God's will be done "On Earth as in Heaven?" When Jesus' said "Give your money to The Poor" he didn't mean to the beggars in the street but to the Treasurer of his commune "The Poor" who pooled their savings to buy debtors out of slavery and add to their slave-saving fund.

Jesus' commune was an anti-slavery machine to save The Poor which would explain why Christians were persecuted by Big Money. The Romans crucified the "King of the Jews" but to his commune, he was the King of the Poor trying engineer "banking on Earth as in Heaven" for all where "Your abundance would at the present time supply their want so that their abundance would later supply your want. Where every debtor paid their debt without interest for Banking on Earth as in Heaven." How hard is it to set up a commune in today's age? Do many communes allow loansharking?

So the Mission of all the Christian, Muslim, Jewish, Buddhist, Hindu, Sikh, Rastafarian and Bahai saints should they come again would be to Abolish Usury, Interest on money.

BORROWER IS SLAVE TO LENDER

The Old Testament is clear:

Proverbs 22:7: "The rich rule over the poor and the borrower is slave to the lender."

Deuteronomy 23:20: "You may charge a foreigner interest, but not a fellow Israelite"

Deuteronomy 28:12: You will lend to many nations but will borrow from none. 13 The Lord will make you the head, not the tail. you will always be at the top, never at the bottom.

Ecclesiastes 10:19: "Money is the answer for everything."

FORGIVE US OUR DEBTS NOT SINS

The original Lord's Prayer actually says "Forgive us our debts" but was altered to "trespasses" by the Forces Of Evil (FOE). A debt is not a sin nor a trespass.

Ezekiel 18:22 explains that if you repent and atone, all your sins will be forgotten. Forgiveness of sins is automatic if you repent and atone. So Jesus would not be telling us to ask Our Father for forgiveness of sins that can be automatically forgotten with repentance and atonement? Jesus was a debt-fighter promising Heaven in this world rather than a sin-fighter promising Heaven in the next.

HEHEMIAH 5:10 DELETED

Nehemiah 5:10 has been altered. Older Bibles have him ordering: "You're taking usury. Let the exacting of usury stop. Give them back their stuff" Newer editions say:

"You're taking usury. Give them back their stuff" deleting the "Let the exacting of usury stop."

<http://SmartestMan.Ca/poembibl.htm>

C) JOHN THE ENGINEER

I'm a Tekton with a 1976 degree in Electrical Systems Engineering (Applied Science) from Carleton University in Ottawa.

John The Engineer is a Tekton with a 1976 degree in Electrical Systems Engineering (Applied Science) from Carleton University in Ottawa. I am in the 1997 Guinness Book of Records for "most elections contested" offering to engineer Jesus The Tekton's "Banking On Earth As In Heaven" program.

I am John The Engineer, wannabe Messiah to complete the installation of Jesus The Tekton's "As in Heaven" banking program to save The Poor.

GREAT CANADIAN GAMBLER TAJPROFESSOR

Best of all, in 1974, Walter Schneider Ph.D., Professor of Engineering Mathematics at Carleton, started Canada's only Mathematics of Gambling course. I took it, aced it, and became Teaching Assistant of the course for 4 years and a professional gambler from 1974 to 2016. Google for Great Canadian Gambler and I come up. I was also known as "The Professor" at the Trump Taj Mahal poker palace in Atlantic City.

<http://SmartestMan.Ca/gambler.htm>

<http://SmartestMan.Ca/TajProfessor.htm>

<http://SmartestMan.Ca/credits>

I have 7 times been declared an Expert Witness in the Mathematics of Gambling by the courts including by the Federal Tax Court of Canada in Epel v. The Queen.

<https://www.canlii.org/en/ca/tcc/doc/2003/2003tcc707/2003tcc707.html>

INVERTS OF UNITY

<http://SmartestMan.Ca/inverts> is my most useful contribution to mathematics: Inverts of Unity which details the missing dimension in math for converting fractions to percentages and back. Everyone knows how many dimes, nickels or quarters are in a dollar, but almost no one knows how many six-pence (17), seven-pence (14), eight-pence (12) or nine-pence (11)!

Missing those four Inverts of Unity is a major weakness I have corrected.

BELL CURVE MASTERY

I am a Master of the Bell Curve which tells me the odds of the same thing happening again for any sized sample. Knowing what to expect how often is very powerful.

MORT-GAGE IS DEATH-GAMBLE MUSICAL CHAIRS

During my first Federal Election in 1979, I figured running money like poker chips without interest has no inflation and enough chips to fund all transactions.

Usury! Interest on money, not livestock that have babies, is the yoke of oppression, the sin that leads to Death. Mort-Gage in French means Death-Gamble. So the mort-gage contract leads to death by elimination. 10 borrowers each pledge their watch as collateral to the pump-house for 10 litres of liquidity. They dump it in the economic pool and all have to repay 11 litres at 10% interest. Like musical chairs, at the end of the game, 9 emerge with 11 liters using the 10th's principal to pay their interest and squeezing him out of the death-gamble.

Interest on money is usury because it creates a "musical chairs with money" death-gamble. Interest on cows does not. <http://SmartestMan.Ca/bankmath>

SHIFT B INFLATION

The banker then seizes the loser's watch resulting not in more liquidity chasing the 10 watches collateral (Shift A) but in 9 watches collateral being chased by the original liquidity after foreclosure (Shift B).

INPUT <http://SmartestMan.Ca/shifts.jpg>

INPUT <http://SmartestMan.Ca/turmelmiracle>

DARING SMARTESTMANONEARTH SMARTESTMAN

I took out the site SmartestManOnEarth .Ca and then <http://SmartestMan>. for short. Even "Super Engineer!" How dare I? Like Mr. Spock, I can use math to figure the odds of the winningest way to go with Science as my guide.

Googling all search results for "John Turmel" should find thousands of reports on my adventures. My first book was titled: The Adventures of John The Engineer Turmel! I must have been dubbed a hundred sobriquets in headlines over my career. <http://johnturmel.com> has links to all my print press before the internet era.

I have two Youtube channels: KingofthePaupers and SmartestManSays and one Rumble channel <http://rumble.com/user/smartestmansays> with all videos listed at <http://SmartestMan.Ca/kotp> I don't post at Youtube any more to prevent them killing my whole channel for a strike.

NO ONE MORE THAN ME

No one in politics, law, industry has sought to restrict bank computers to a pure service charge and abolish the interest charge for Banking on Earth as in Heaven more times than me.

(1) POLITICS

https://en.wikipedia.org/wiki/John_Turmel is a pretty big page and misses 90% of my adventures.

I ran in my first 1979 Canadian federal election to legalize gambling. I had been busted running underground blackjack games several times and had learned to use the courts. But when I was asked about inflation, I wondered why my casino chips did not lose value and government coins did? Same hardware! After 40 days analysis, I wrote: What would an interest-free world look like?

BANKING SYSTEMS ENGINEER

In that first 1979 election, I started my Abolish Interest Rates mission to establish Banking on Earth as in Heaven without alleys where men weep and gnash their teeth by "restricting bank computers to a pure service charge and Abolishing the interest charge." Banking on Earth as in Heaven! There was a simple fix. Banks charge interest and service charge. Just zero the interest charge and raise the service charge to pay for the banker's time, not for the money's time. Having derived the solution to fix the banking system, it was my engineer's duty to keep trying. In my 1980 next election, I started wearing a white hard-hat titled The Engineer so people would know they should be taking a scientist explaining how to save everyone seriously.

\$100 BILLION LOAN OFFERED TO JOE CLARK GOVERNMENT

Also in 1979, I offered to lend the Joe Clark Government \$100 billion of my casino chips at no interest as long as they were spend in direct exchange for work to retain their value as they now do. They thanked me and noted what I had said.

MIRACLE EQUATION

I published the derivation of what the media dubbed my "Miracle Equation" since it could explain how interest caused both Unemployment "U" and Inflation "J."

<http://SmartestMan.Ca/biglie.htm> $U = J = I/(P+I)$

Given both chips and coins use the same hardware, and since chips never inflate, inflation was a software problem that could be corrected with a programming change for how they were issued and redeemed!

In the 1980s, when Pierre Trudeau raised interest to 22% to "fight inflation," I was the only politician who noticed that higher interest costs to producers will be passed along in higher prices to customers, not lower prices! But the world was successfully suckered to "raise interest to fight inflation," the Big Lie of Economics. Most people who have not studied economics, if asked whether interest fights or causes inflation, are quick to agree that a merchant must pass on increased interest costs in his prices and therefore it is evident that increased interest costs will result in increased prices.

Giving more to the rich is the only orthodox way known to fight inflation... for the rich. I'm the only person who teaches that inflation is not only "more money chasing the goods," Shift A, it can also be "same money chasing less goods" after foreclosure, Shift B!

INPUT <http://SmartestMan.Ca/shifts.jpg>

SMARTER THAN AI

Google "fight inflation" and note how "raise interest" is the only way you'll hear about fighting inflation. If they're talking about fighting inflation and not killing it, they're really just coping with inflation. Ask ChatGBT "How to end inflation?" and be told:

Ending inflation is a complex economic challenge that requires a combination of monetary, fiscal and structural policies. There is no one-size-fits-all solution, as the causes of inflation can vary, but here are some general strategies policymakers often consider:

Interest rates: Central banks can use monetary policy tools such as adjusting interest rates to influence inflation. Raising interest rates can help reduce inflation by making borrowing more expensive and saving more attractive. Conversely, lowering interest rates can stimulate economic activity and inflation."

Government Spending:....

So inflation can be fought, it can be coped with, but AI knows no way to end inflation. But I do.

My casino chips do not inflate and remain backed up by the collateral pledged when they were issued, not loaned! And yet I can make my casino chips inflate just by charging interest. 10 guys put up their watch as collateral at the pump-house for \$100 liters of money each at 10%. They spend the \$100 into the Economic Pool and all try to come out with \$110. But only 9 can come out with \$110 so the 10th guy, like musical chairs, gets foreclosed into the "S-i" Alley. Banker seizes his watch and tells the others their \$1,000 no longer get back 10 watches, but "only 9 after seizure." (Shift B Inflation)

If I can end inflation of my casino chips just by not charging interest with no collateral seized, so too, I can end inflation of money by restricting banks to service charge and abolishing the interest charge. Yet ChatGBT hasn't figured it out. Imagine me in a debate with ChatGBT on why chips work better than money. I know more than AI on Banking Systems Engineering! Economists have it backward.

SOCIAL CREDIT OVER OTHER PARTIES

After I had joined the Liberal Party but found no support for banking reform, the Conservative Party with the same result, I told my grandfather Adelard Turmel I felt it was my engineer's duty to try to repair the malfunctioning banking system by restricting their computers to a pure service charge and abolishing the interest charge. Overjoyed, he told me he was believer in the interest-free Social Credit of Quebec's Louis Even of Salvation Island fame stating 1) Money has no babies; and 2) Interest is Theft. He was delighted to learn I had seen sociable credit Heaven on my own.

Adelard was 18 when Canada conscripted him for World War 1, the War to End All Wars. His parish "Abbe Leclerc" told him and his brother to dodge the draft by hiding out in the Quebec woods. They avoided the killing fields or I might not be here.

So I joined the Social Credit party of Canada. I liked the name Social Credit because the solution to anti-social credit was in the name with an adjective and a noun. Social Credit is the solution to anti-social credit. Friendly credit is the solution to unfriendly credit. Most political parties do not have nouns to focus on the problem right in the name. And I'm the only Socred to call interest-free loans Sociable Credits. I was ejected from that party when they accepted 6% usury on credit was social enough.

INPUT <http://SmartestMan.Ca/schatter.jpg>

GREEN PARTY OF CANADA

In 1984, I was at the founding convention of the Green Party of Canada at Carleton University in Ottawa and was expelled from the national party by the Ontario Provincial Branch! They called off the nomination convention and appointed another member so I couldn't run. Small party politics are a lot dirtier than those of major parties being watched by the media. It did make the news: Search Green Party at

<http://SmartestMan.Ca/prspol84.htm>

INPUT UPLOAD <http://SmartestMan.Ca/greens.jpg>

GREEN PARTY PLATFORM

But there was one super LETS enthusiast Michael Green to get LETS on the Green Party platform! The Green Party of Canada supported Banking on Earth as in Heaven but LETS was later taken off. Right for a while!

SOCIAL CREDIT PARTY OF ONTARIO FOSTER MERCHANTS

In 1985, I founded a Social Credit Party of Ontario branch in Ottawa and used it to launch my Foster Merchant No-Fee check-cashing program trying to put the Money Mart check-cashers out of business. Money Mart would cash a post-dated government check valid in 3 days for 6% right now. Those in immediate need of money were its victims. Since most businesses had current accounts that paid no interest, I organised a network of merchants who could cash poor people's checks for full value since there was no rush to make deposits to get interest. I provided the victims with a photo-ID card with their thumb print on the back and they would put their thumb print on the checks before cashing.

Our biggest Foster Merchant was Dave Booth's gas bar. If he saved people \$42 on their \$700 check, where do you think they bought their gas thereafter? And once their check cleared, Dave didn't need their thumb-print again. I issued over 500 ID-cards to match to a Foster Merchant and was accused of doing it to win votes. You can find reports on the Money Mart challenge at <http://SmartestMan.Ca/prspol85.htm>

DIVIDEND PARTY OF CANADA

I tried founding the Dividend Party of Canada promising to use the interest payments I would no longer have to make to give every Canadian a dividend on their share of the Corporation of Canada.

CHRISTIAN CREDIT PARTY OF CANADA

After resistance elsewhere, I tried founding Christian Credit Party of Canada since Credit could only be Christian without interest. Tough sell starting any new party.

ABOLITIONIST PARTY OF CANADA

In 1993, after winning a million dollars in my underground Ottawa Casino Turmel busted in Ontario Provincial Police "Project Robin Hood," (police knew I was helping the poor with my illegal gains) I spent the money before it could be seized as proceeds of crime by founding my own Abolitionist Party of Canada, anti-slavery Abolitionist to lift the debt chains that the original Abolitionists didn't see while they lifted the metal chains, and ran for Prime Minister with 80 candidates, more than the Greens. The Crown spent a year searching for any hidden money and admitted I had spent it all. The judge dismissed the Crown motion to jail me for 10 years until I paid the million back ruling the law was for those hiding the proceeds, not for those who had spent it all. Then my landlord, Winfried Lapp, an Ottawa Police officer, lent me \$3,000 to go play poker in Atlantic City and get back on my feet. I really did spend it all, didn't have to lie.

PAUPER PARTY OF ONTARIO

Last, I founded the Pauper Party of Ontario for a broke generation which explains why I took the online monicker KingofthePaupers. Who'd want to be a king of the Paupers except someone wanting to complete the mission of the original King of the Poor?

GUINNESS RECORD MOST ELECTIONS CONTESTED

In 1997, the Guinness Book of Records cited John The Engineer for 41 "most elections contested," now 112, none won, promising to engineer "Banking on Earth As In Heaven" by restricting bank computers to a pure service charge and abolishing the interest on money charge. In my elections, I put my occupation as "Banking Systems Engineer!"

INPUT <http://smartestman.ca/guinness.jpg>

MOST ARRESTED CANDIDATE

I probably also hold the Guinness Record for most-arrested political candidate for objecting to being excluded from public debates in elections where I am a candidate by taking a seat until removed by guys with badges and guns. Google for Candidate Turmel Removed.

CRTC

Though I was offering the voters interest-free credit cards, they chose to keep paying the current 28% interest rate. How stupid must they be? Or had Big Brother not told them? Over the years, I kept getting less and less a share of the free-time even though the Broadcast Act said free-time had to be shared by all candidates on an equitable basis, quantitatively and qualitatively. When I was given an unfair share or even excluded from a broadcast debate, I'd complain to the CRTC and when they did nothing, drag them into Federal Court who then ruled that my getting less or no time was still equitable! So I kept going back looking for a judge who would find that zero wasn't fair. Almost all court fights for equitable free-time in election debate broadcasts were brought by me.

In 1980, CTV hosted a TV debate for 10 candidates in Ottawa Centre. They gave 20 minutes to candidates for the 5 major parties and 15 minutes to candidates for the 5 minor parties. So I complained about the missing minute. I took the case of the Missing Minute to the Supreme Court of Canada.

Sadly, in 2010, the Supreme Court of Canada ruled Rogers TV ad the right to exclude me from debates and free-time broadcasts no longer had to be shared equitably and media could exclude candidates they did not want.

<https://www.scc-csc.ca/case-dossier/info/sum-som-eng.aspx?cas=33319>

In my last Kitchener Centre provincial by-election, the major party candidates shared 2 hours live and I got a 2-minute taped statement. So should I feel bad losing all those elections after being regularly handicapped?

STUDENT VOTE

During one election, I had to prepare answers to 5 questions by students. So it was my chance to keep Banking as in Heaven simple:

https://www.youtube.com/watch?v=Msw_vGhWVKc

BUS BUCKS

<http://SmartestMan.Ca/busbucks> details videos of my 2010 Brantford mayoral campaign where I proposed paying students with bus tickets to do community service like shoveling snow. Bus Bucks were an ideal currency because they could be taken by all the stores and then given to the kids in change. All but one student said they would work for Bus Bucks. At a school debate, they cheered loudly, and though mayor Chris Friel saw they wanted bus bucks jobs, even his son Connor said he'd work for Bus Bucks, sadly, the voters preferred

shoveling their own snow and it was never implemented. Paying with bus tickets was later eventually started in Hong Kong. Bus Bucks can still be instituted anywhere with empty buses and idle kids.

PRIME MINISTER OF THE PLANET

Prime Minister of the Planet Quadruple Elections Campaign (Bill Gates: Richest Pauper's Prayer to Richest Man I am the first declared candidate on Youtube for Prime Minister of the Planet

<http://www.youtube.com/watch?v=2OIwlZmpy30>

CHECK <https://www.youtube.com/watch?v=q4lMKbWgmRY>

12 PARTIES SUPPORT LETS

In the 2018 election, candidates from 12 Parties for Bank of Canada Accounts: "AB Abolitionist; AN Alliance du Nord; CA Canadian Action; CH Christian Heritage, FD Forces & Democratie; MJ Marijuana; ML Marxist-Leninist; PA Party for Accountability; PC Progressive Canadian; RH Rhino; UN United and IN Independents and some Greens.

1974

<http://SmartestMan.Ca/1974> is my poem explaining how Pierre Trudeau started the exponential growth of Canada's national debt and how the Spock Solution would solve it.

(2) PUBLISH DIFFERENTIAL EQUATIONS

I came to my anti-interest views from having run underground card games with banks of interest-free casino chips. Running chips right is easy or you get beaten up. But I learned that Jesus agreed with the Abolish Interest crowd. Thomas 95: "If you have money, do not lend it out at interest." And that Old Testament saints Ezekiel, Isaiah, Nehemiah had inveighed to "Let the exacting of interest stop" Nehemiah 5:10 (deleted from some recent Bible versions.. Good News Bible Isn't). And saw his suggested stiffing the bankers for the debt service in the Parables of Talents and Minas. Then I found that Mohammed agreed with the Abolish Interest crowd including making Jesus a prophet of Islam. Mohammed said: "If you have money, do not lend it out at interest."

1995 KOOK OF THE MONTH

I published Jesus' Differential Equations and was voted Internet July 1995 Kook of the Month for arguing that this most-quoted verse was a Differential Equation describing what happens to bank Balances over time. That really upset the online world. Nice being proudly right when the whole world was wrong.

<http://SmartestMan.Ca/kook95.htm>

(3) PROTEST

In the early 1980s, I started picketing the Bank of Canada every Thursday for 5 years when the interest rate was set at high noon and then moving the protest on to Parliament Hill at the West Door where the members saw my placards upon entering. I often saw Pierre arriving in his limo.

In 1981, I did a cross-country protest tour picketing the Bank of Canada branch in each province. I was called "Interest Rate Protester," "Bank Protester," "Bank Basher."

In 1982, I was picketing the IMF Toronto meeting where an officer arrested me for disturbing the peace by passing out flyers. I was released in hours once the media started calling the station.

INPUT <http://smartestman.ca/imf82.jpg>

In 1985, I, Mama Therese and Brother Ray picketed the Bilderberg World Rulers at the Chateau Montebello Conference just up the Ottawa River on the Quebec side. On the 3rd day, a line-up of limousines were stopped at the highway waiting for a chance to turn. I saw David Rockefeller in the lead limo and he saw my placard: "Farm Foreclosures Equal More Starvation." As we commiserated over the sad reality, I flipped my sign so he could see: "Bankers Starve Third World Babies." His jaw dropped so I guess he'll never forget meeting John The Engineer. In 1996, mom and I picketed the Bilderbergs at their King City Ontario meeting. In 2006, we picketed their Ottawa meeting.

(4) ATTACK THE WICKED

I didn't try whipping the bankers concluding a Pauper taking up a whip not as useful as a King taking up a whip. But I did ask the courts to end Banking on Earth as as in Hell by "restricting bank computers to a pure Service Charge and Abolishing the Interest Charge." I asked dozens of courts including six 3-judge Supreme Court of Canada panels citing their K-slabs of death.

From <http://SmartestMan.Ca/poembank> listing my efforts to engineer Banking as in Heaven:

K-SLAB EQUATION OF RESPONSIBILITY

I reached the Supreme Court of Canada 6 times, refused each time and included it in my Memorandum

<http://SmartestMan.Ca/scc3.htm>

The link shows the graph for deaths per day for the UNICEF estimate of 46,000 dead babies a day, 17 million a year, 40 million with adults, and how the Keepers of Usury who delayed the fix have a slab of responsibility for all who die until the fix. So Chief Justice Bora Laskin could have turned off the conveyor belt of death over 40 years ago resulting in 680 million dead babies less and 1.6 billion souls Laskin could have saved. That's how the K-slab works, just count the number who die during the delay! I put the Equation of Responsibility for those judges who had the power to turn interest off and failed to verse in <http://SmartestMan.Ca/poembank.htm>

I pointed out they had the might to instantaneously,
Effect repair on our industrial capacity.
It's just like a conveyer belt with people in a line,
Who fall into abyss of Luciferian design.

If you could press a button and cut power to the beast,
The belt would have momentum but you'd lose the very least.
With the production maximized of butter, not of guns,
We still could not get there in time for all the weakest ones.

So there would be a finite loss of souls until the day,
When all may access credit and for life support may pay.
But if you'd waited for a while before you used your might,
You'd lose some extra souls for failing to so expedite.

And if you had refused to press the button to this day,
It would, on you, the blame for every fallen soul we'd lay.
With simple mathematics we can count the number who,
Have perished by inaction of the men with power few.

The number of souls perishing, all due to the delay,
Is equal to the number who do perish on that day.
With 40,000 children dying every single day,
Responsibility belongs to those who had the say.

Since all the judges had the power to compel the banks,
To fix the killer program so they don't deserve our thanks.
The number they must answer for which day to day does climb,
Is equal to the number who have perished since that time.

FIGHT FORECLOSURES!

In 1984, copying the resistance of the Slothful Servant in the Parables of the Talents and Minas, I offered to repay the principal of my Toronto Dominion Bank loan, the social credit portion of my debt for what I had received, but not the anti-social credit portion, the interest I had not received. John Turmel v. Toronto Dominion Bank went to the Supreme Court of Canada #18329 asking to restrict bank computers to service charge and abolish my interest charge.

I started helping people fight their foreclosures and evictions by using a template of my TD Statement of Defence: Stiff-the-Bank Anti-Foreclosure legal kits.

Many of my mortgage foreclosure fights made news and I was dubbed "Bank Fighter Extraordinaire" for my defence to the Supreme Court of Canada against the eviction of allergic Jean Metcalfe in Smiths Falls. Her home had been purified of all chemicals that could affect her and she had nowhere else to go. The Supreme Court let her be evicted and she lived on the street until a kindly doctor bought her house and let her move back in.

<http://SmartestMan.Ca/prspol82.htm>

<http://SmartestMan.Ca/prspol83.htm>

JUDICIAL EFFORTS TO STOP VEXATIOUS LITIGANT

The Ontario Court of Appeal had automatic stays pending appeal to Jean Metcalfe's benefit. But seeing more foreclosure fights on the way, they changed the rules so that stays were no longer automatic, you had to ask for a stay pending appeal which they could refuse pretty well ending any further lengthy fights.

Supreme Court of Canada Applicants for Leave to Appeal like Jean Metcalfe were allowed a 15-minute presentation to a panel of 3 judges. But when they saw a slew of mortgage foreclosures coming their way, they changed the rules to be able to dismiss the applications without a hearing.

My Federal Court strategy and tactics in resisting MedPot prohibition and Covid 19 mandates were so effective that the Crown got the Court to declare me a Vexatious Litigant with all my good deeds being discredited as frivolous and only done to be vexatious and to ban me from helping people and rejected a claim made with the online templates of my arguments. My "Vexatious Litigant" appeal is now on at the Supreme Court of Canada.
<http://SmartestMan.Ca/s4015.txt>

Crown said my charging Sears with selling gambling devices was to vex, I say it was retaliation for being charged with possession of the gambling device, the cards, an old law still on the books used to get me.

Crown said my gambling busts were to vex but I say it was to legalize the casino industry to provide jobs.

Crown said my Stiff the Bank kits were to vex and I say it was to save the foreclosed families from eviction.

Crown said my marijuana defences were to vex, I say my making the Crown withdraw 4,000 marijuana charges was to save the accused from punishment for a medicinal herb.

<http://SmartestMan.Ca/stay4k.jpg>

Crown said my 400 "extraordinary, unprecedented, remarkable" challenges to the Manson decision to cancel 18,000 marijuana grower permits televised to 12 Federal Courtrooms in 10 provinces was to vex and I say it was to get the permits back to the patients.

Crown said my 400 challenges to the delays in processing marijuana permits was to vex and I say it was to help those victimized by processing times of months when it used to be weeks.

Crown said my 55 challenges to the 150-gram cap on public possession was to vex, I say it was to allow high dosers to leave home for more than a day or two.

Crown said our 90 Covid challenges were to vex, I say it was to save the world from an unsafe, ineffective experimental treatment over a false alarm.

The Federal Court of Appeal sustained the Vexatious Litigant Order and my application for leave to appeal was denied by the Supreme Court of Canada #41053. The judges had to record that all my good deeds were only done to be vexatious, frivolous and abuse the process.

<http://SmartestMan.Ca/s40sc.pdf> has my Memorandum of arguments covering my whole career of court cases to make the argument that I'm ashamed of none. I'm honored the Crown and the Bench have to stop The engineer from plugging their pipes again. Almost 400 plaintiffs filed my template once, almost 400 again, almost 90 Covid Mortality Hyped Hundredfold False Alarm plaintiffs, and if the truckers had decided to plug up the Court's and Ministry's files instead of Ottawa streets, my Covid template would have crashed their system. So they have to make sure that the only person who knows how to crash their systems faces massive hurdles.

<http://SmartestMan.Ca/posts.pdf> has documentation

(5) FINANCED THE LETS TIMEBANK SOFTWARE

INPUT <http://SmartestMan.Ca/linton85.jpg> is Michael Linton's 1984 Thank You letter for financing his LETS (Local Employment-Trading System) timebank Jesus software. It complied with Jesus's specifications: interest-free. It allowed single parents to log on what nights they could double-duty baby-sit each others' kids and pay each other with 1-Hour IOUs even when they were broke. The mechanic could take 3 Hours/hour, the dentist 6 Hours/hour and a support network could grow around some broke families. LETS do "Banking on Earth as in Heaven" then spread around the world.

LETS OZ

There were thousands of news reports on LETS. Australia's Jan 9 1990 The Bulletin called LETS "economic lifeboats." <http://SmartestMan.Ca/np5.htm>

LETS UK

<http://youtu.be/CMmGzFtFAMo> is the 1997 video LETS: Another Economy by Farnborough College of Technology student Robin Johansson covering the London part of my 1998 UK LETS speaking tour with loads of details on the the rise of LETS Local Employment-Trading Systems in the UK in the 1990s, the only video documentary that I am aware of.

At 29:24, young mother squeals with delight "I got a washing machine" with her LETS GreenPounds with no need for cash she didn't have while pointing at her baby in diapers. Don't I like to boast how I provided the LETS software that gave her the interest-free credits she needed to get the washing machine... I'd bet millions of community currency members around the world have good reason to thank me for financing the world's first LETS timebank software to let the Time Standard of Money save them from the Gold Standard of Money.

LETS URSLNAT

<http://SmartestMan.Ca/urlnat.htm> was my last listing of LETS urls in nations around the world until it got too big. You'll notice there were 4 LETS timebanks in Israel with both Jewish and Palestinian neighbors (maybe baby-sitting each others' kids?) Imagine how I felt watching LETS Banking on Earth as in Heaven spreading with so many stories of how to save the poor.

LETS MONKEY FLYER

In the 1993 federal election, I used LETS in my election flyers asking if you'd vote for my monkey holding a LETS diskette or my opponent with no diskette. INPUT <http://smartestman.ca/monkey.jpg>

GOLD NUGGET MAGIC MONEY NETWORK

<http://goldnuggetnetwork.com> is my Gold Nugget Network with a flyer listing 200 Brantford stores that would give a discount for a generic Magic Money coupon I could sell for \$1 or give away. Easily started anywhere. It also includes my Ottawa Directory of over 1,000 stores. I gave away thousands to local businesses at Christmas time. Must have saved regular workers hundreds and hundreds of dollars in savings.

LETS networks would often hold monthly trading days where people came with goods and services they wanted to trade. One of the weaknesses was the lack of small denomination tokens to use. So my Magic Money \$1 coupons could act as \$1 notes to facilitate LETS trades.

JUBILEE 2000

In my 1999 European LETS speaking tour, I got the chance to speak at the Jubilee 2000 who wanted to Abolish the debt for the poorest 40 countries. My placard said "Abolish Interest on Debt." I didn't care about debt, I cared about the usury. INPUT <http://smartestman.ca/j2k01.gif>

UNILETS 2000 MILLENNIUM DECLARATION C6 TO GOVERNMENTS

In 2000, Sabine Kurjo-MacNeil who did much to help organize my UK LETS Tour in 1998 heard about the Millennium Forum for non-government entities and suggested I qualified because I had founded the Abolitionist Party of Canada and I should apply. I did and a clerk of the Globalisation Committee from Australia was a single mother who had benefited from LETS in her towns and suggested I be invited to talk about a global UNILETS. The LETS timebanking software is why I was invited to the United Nations Millennium Assembly in New York In 2000 to speak on replacing the Gold Standard of Money with the Time Standard of Money: Declaration C6 to Governments seeks to "restructure the global financial architecture" with an "alternative time-based currency."

The UN censors cut the name UNILETS (United Nations International & Local Employment-Trading System) and its greatest feature, "interest-free." Otherwise many world leaders with LETS in their nations would have found out what the Declaration C6 meant. The Time Standard of Money hasn't yet taken over from the Gold Standard of Money but it will.

What if the United Nations had accomplished a global time-based currency? Regardless, I made the UNILETS Banking on Earth as in Heaven Declaration C6 to the world's UNITED NATIONS MILLENNIUM ASSEMBLY? https://i-p-o.org/millennium_forum.htm Someday, time will be the collateral for loans, not yellow or silver rock! After all, it's time that pays the way, not yellow rock.

I tried to attend the U.N. Millennium Summit of Religious leaders but couldn't apply to get in without being an established religion, a preliminary event at the Waldorf Astoria Hotel, got evicted and so picketed and passed out my "Abolish Interest Rates" literature.

Then I attended the U.N. Millennium Summit of Political leaders and though I was not a head of state, the Sep 7 2000 New York Earth Times newspaper that came out during the summit and was distributed in all the downtown hotels had a centerfold page with pictures of Cuba President Fidel Castro, US President Bill Clinton, Saudi Prince, then King, Abdullah Bin Abdulaziz, UK Prime Minister Tony Blair, China President Jiang Zemin, Palestinian Chairman Yasser Arafat, Israeli Prime Minister Ehud Barack, and top picture, me, John Turmel captioned: "The lone activist outside the United Nations calling on developed countries to forgive debt owed to them by developing countries." If they had noted my placard: "Don't Cancel Debt, LETS Cancel Debt Growth" and "Jesus, Mohammed and Nehemiah said: Don't Lend Money At Interest," they would have known I wasn't asking to forgive the debt of developed countries for Principal borrowed which they got to spend but only the debt for the interest not-borrowed they never got to spend. Still, I made the collage with an impressive coterie if world leaders!

Finally, there was the Millennium Youth Summit in December 2000. One of the participants was Darrel Von Slack from Barrie Ontario who had heard me give a speech to his class earlier in the year about UNILETS arranged by President of my Abolitionist Party of Canada Chris Boddy. There is a video of Darrel stating: My friend John Turmel got the UNILETS resolution passed in the Millennium Forum Declaration and we should endorse it too. Though they voted for it, and for youth delegates to the UN, both those proposals were deleted from the final youth declaration!

DRAGONS DEN

In 2011, I appeared on Dragons Den asking them to finance a LETS in Brantford. They did a hatchet job so I sued for defamation and they had to give me the whole video which I posted as "KingofthePaupers on Dragons Den for Brantford Bucks 10% Royalty." Watch the King of the Paupers slap the brains of 5 billionaires around the studio with "Flash the cash, bye bye trash" and the <http://www.youtube.com/watch?v=UV0L2hyqAZc>
More related videos at <http://SmartestMan.Ca/kotp>

LETS VIDEOS

<http://SmartestMan.Ca/kotp> has most of my videos that deal with "Banking on Earth as in Heaven."

SEARCH "ANTIPOVERTY SYSTEM" GET LETS

At that time, had you googled for "Anti Poverty System," LETS would have come up. Googled for "Anti Poverty Engineer," John Turmel would have come up. My favorite search result!

SEARCH "BANKING ON EARTH AS IN HEAVEN" GET TURMEL

All Google's 6 results for "Banking on Earth as in Heaven" are by John Turmel (@turmeljohn) at Instagram; Facebook; Quora; YouTube; Librti; YouTube. No one else on Earth speaks of how to engineer "Banking on Earth as in Heaven."

ARMAGEDDON: KEEPERS V ABOLITIONISTS OF USURY
INPUT <http://smartestman.ca/turmelabol.jpg>

COVID C19 FALSE ALARM IS JOKER

<http://SmartestMan.Ca/c19scjct.pdf> is my Federal Court of Canada Statement of Claim for a declaration that no Covid restrictions were mandated.. and damages from lockdowns when I learned WHO compared Covid's 3.4% in-hospital CFR (Case Fatality Rate) not to the Flu's 10% in-hospital CFR but to its 0.1% hundredfold too small out-of-hospital whole-group IFR (Infection Fatality Rate) causing a Covid Mortality Hyped Hundredfold False Alarm. Ninety others filed their own actions too. Their actions were stayed while mine reached the Supreme Court of Canada! My reports along the way:

<http://SmartestMan.Ca/c19reps.htm>

False Alarm is the Joker in the Deck. It short circuits all other suggested remedies for that false crisis. No need for fire extinguishers, water hoses or the Fire Department for a False Alarm. It is the Wild Card that eliminates the need for any other alternatives. Hearing "False Alarm" snuffs out fear.

<http://SmartestMan.Ca/c19flyer.pdf> is our flyer based upon our Statement of Claim
<http://SmartestMan.Ca/c19sc.pdf> with which we brought the scam to the court's attention:

- WHO compared Covid CFR to Flu IFR;
- Wuhan found no asymptomatic spread in 10M tested;

My book <https://www.amazon.com/dp/b09dfgld8d> details the facts in our Statements of Claim and reports on the initial court hearings. Check and tell me if any one of our cards has been proven not true!

<http://SmartestMan.Ca/c19a3tr.pdf> is my motion for reconsideration of the Supreme Court's dismissal of our Application for Leave to Appeal pointing out that Excess deaths have gone wild and there are now plenty of admissions our facts were right that lockdowns and vax were unsafe. The Registrar didn't let it in.

GLOBAL EFFECT

Our Federal Court Actions to declare Covid a false alarm could have had global consequences. A declaration by Canada's Federal Courts would have made global news. Imagine if we'd won and the False Alarm made the news all over the world to calm things down? So I would I hope people all over the world learn how we tried to warn them. Especially if they have lost a loved one to the scam.

Covid False Alarm Plaintiffs tried to save millions from an unnecessary clot shot for a hundredfold hyped emergency! Tens of millions of excess deaths have now been reported from the billions of shots. And we tried to warn the world it was a false alarm. Sadly, Judge Trent Horne punished everyone with \$500 in court costs each.

<https://rumble.com/v3f0pso-covid-false-alarm-court-costs-givesendgo.html>

FIX WAR BEFORE PHARMA

Big Pharma will usually get "National Security" clearance to develop super virus because the enemy is doing it too. As long as there is an enemy, there is reason to work on super-pathogens. But end the funding of war and everything changes.

Only fixing money can stop the Pharma Scientists from developing more and more deadly pathogens for defence against them being developed by the enemy. Only ending financial War can we end the Pharma War.

URINE THERAPY FOR THE POOR

Proverbs 5:15: Drink the waters of your own cistern!

I am a leading online advocate for Urine Therapy

https://www.youtube.com/playlist?feature=edit_ok&list=PLYEOvpWV5TtU_Uqr2dTTg3iHg3u_JLf8u is my playlist of videos detailing my 4-month 18-week 126-day John Armstrong "Miracle Water" fast on nothing but urine and feasting once a week to lose 48 pounds.

It explains how urine is not a waste product but a cleanser with useful enzymes, hormones, vitamins, minerals, stem cells. Like milk is a blood product from the mammarys, urine is a blood product from the kidneys. Would God have placed a waste outlet right over the birth canal? Or would it be a cleanser outlet? I once did 28 days with only kidney milk and no feasting at all suffering no hunger. Curing a root canal infection in just 2 days made me a believer?

Imagine the derision I endured being first to chug a mug of my miracle water on video but the KingofthePaupers had to spread the word to The Poor who had no access to medication that the best free medicine was "at hand."

<http://SmartestMan.ca/urinechug.mp4>

GEN HELL

Television shows of our era will clearly show the Hell we've been subjected to. Our hearts break for those living in the alley where men weep and gnash their teeth. Generation Zero have no hope of ever having a home and family while population is going down. Only fixing their anti-social credit problems can save them. Incredible to see alleys breaking out all around much of the planet. Kids have no hope.

WAR

<http://SmartestMan.ca/ukrainewar> has videos explaining my understanding of the history of US being Muscle for Big Money. Should we fear WW3 right now with US using Ukraine to attack nuclear-armed Russia? There can be no limited tactical use of nuclear weapons. Once first used, the target must use their nukes before they are destroyed. Even without nuclear war, disruption of trade routes, food and energy supplies, growing unemployment with food riots and outlawry at home,

DANGER GLOBAL WARMING

<http://SmartestMan.ca/globalwarming> is my poem and video on the hoax. Look at the problems caused all over the world by rulers being suckered into believing CO2 causes dangerous warming.

The Warmistas have been caught lying so often, it's a joke on the stupid duped who still believe in their "science." This looks like another Mass Murder by Big Money because shutting down coal and oil before wind and solar can take over the load is quite suicidal.

Imagine if I'd been able to expose the Global Warming hoax? No putting farmers out of work, no shutting down oil and gas before wind, solar, alternatives are ready, no hysteria over a False Alarm. My specialty!

MESSIAH VIDEOS:

<https://rumble.com/v3xhu4d-messiah-to-engineer-banking-on-earth-as-in-heaven.html>

on Rogers Cable TV

Meet the Candidate: Kitchener Centre - John Turmel

<https://www.youtube.com/watch?v=A1bay9nnE5A>

THREE NOBEL PRIZES

I bet I win 3 Nobel Prizes, two last ones:

- Last Economics Prize for Miracle Equation

Once the economic riddle of how to fix money is solved, who needs prizes for coming close?

<http://SmartestMan.Ca/bankmath.htm>

- Science for LETS Engineering

LETS anti-poverty timebank software will get Michael Linton and John Turmel Nobel Prizes in Science.

- Last Peace Prize for Global UNILETS Prosperity

Once prosperous peace is established, who needs prizes for trying?

SHOTS ON GOAL WITH MY AIR MISSION

Muslims expect the Mahdi to come save the planet, Christians expect the Christ to come save the planet. What if I had won one of the attempts to abolish interest rates and engineered Banking on Earth as in Heaven? Since I've spent my last 45 years in the quest for my Abolish Interest Rates (AIR) Mission, it finishes their missions too. I didn't win and kept running in election after election offering to give everyone an interest-free central bank credit card... No judge ruled interest was evil... Can you think a more likely candidate than me to save the world with Banking on Earth as in Heaven?

Had I succeeded in my attempts at banking on Earth as in Heaven, the Final Mission Accomplished, what would they all have call the guy who completed engineering their designs.

The difference between their hopes at monetary reform and mine is vast given the new technology I have at my disposal. I can deliver banking on earth as in heaven with the switch of a disk.

Since the requests were always for service charge to replace interest, they were all aiming on the same goal Ezekiel, Isaiah, Nehemiah, Jesus, Mohammed had all aimed for, it would be a score to switch the software with no poverty nightmares. No more taking from the poor to give to the rich.

THAT CHANNEL

<http://SmartestMan.Ca/thatchannel> are 15 interviews done in a recent election explaining how fixing money fixes everything.

ONLY BANKING SYSTEMS ENGINEER

I alone in the world claim to be "the Banking Systems Engineer." There is no one else with my credentials. Google for "The Banking Systems Engineer" to find 25 articles about only me. I am the only person in the world who has laid claim to the profession of Banking Systems Engineering. It's in all my election returns so many more references on government databases for my elections. They will someday be counted.

TURMEL CSOMOR DOCUMENTARY

After moving to Brantford and picketing in public during an electoral campaign, Chris & Chad Csomor decided to make a DVD documenting my efforts called "Turmel." They submitted it to the Cannes Film Festival! It didn't win. Find excerpts from my video index for my KingOfThePaupers channel at <http://SmartestMan.Ca/kotp> He printed a thousand copies and still has over 200 left selling them at \$20 + \$5 postage. If you order, I'll get him to pop over and I'll autograph them.

ASA Amnesty Security Anonymity

I think a reason the bankers haven't taken me out despite my intention to end their Banking as in Hell is that I've promised to forgive and forget all their sins. I call it ASA, Global Aspirin: Amnesty, Security, Anonymity! Forgiveness for any Mammon-induced sins, Security with a LETS interest-free credit card, and Anonymity so they can relocate and hide if their record is that unforgettable. I'll leave judgment on the Wicked to a higher power in the afterlife.

VEXATIOUS LITIGANT TO SUPREME COURT

Messiah Supreme Court Reply on vexatious litigant label
Feb 5 2024
John Turmel v Attorney General of Canada #41053

Applicant John Turmel
Via Email

Ms Chantal Charbonneau, Registrar,
Supreme Court of Canada
Registry-greffe@scc-csc.ca

re: John Turmel v Attorney General of Canada File No 41053

Please accept this letter as the Reply of the Applicant.

Jesus Christ, Mohammed, Nehemiah, Buddha, great Hindu, Sikh, Bahai and Rastafarian saints all diagnosed the problem afflicting the world and prescribed how God's will be done "On Earth as in Heaven." They had no mass communications and so had no global impact then. Jesus best explained why he spoke in parables in Matthew 10:12 so they do not understand because "To him who has abundance will more be given, from him with no abundance, even what he has will be taken away." Most-cited in Christian Scripture 7-times, what does this reason Jesus spoke in riddles mean?

In Matthew 25:29, the Parable of the Talents says:

"The kingdom of Heaven will be like" and then describes the "Master who reaps where he does not sow" lending money to 3 slaves. After years, two successfully repay an extra 100% but the third only returned what he had received stating "You are a hard master who reaps where you do not sow, I was afraid to lose what was yours so I buried it. Here's what's yours." The Master rebuked: "You slothful servant, you should have repaid me what was mine with usury. "To him with abundance will more be given and from him with no abundance, even what he has will be taken away." Take what is his and throw him into the alley where men weep and gnash their teeth." The statement is the Differential Equation for Usury! Interest on money, not livestock, is the yoke of oppression taking from the poor to give to the rich. Banking on Earth as in Hell.

Paul Cor II 8:14 describes Banking as in Heaven:

"Your abundance should at the present time be a supply for their want to that their abundance may later be a supply for your want. In that way, he who gathers much doesn't have too much and he who gathers little doesn't have too little, that there be equality!" His commune "The Poor" practiced what he preached. An anti-debt-slavery cult.

With the financial system now computerized, would it be easier to believe Star Trek Science Officer Spock who knew the math to figure out the winningest way to go could announce he was the Messiah who could reprogram Banking as in Hell to Banking as in Heaven to complete Jesus The Tekton's savior mission to turn Alleys of Earth into Gardens of Eden with an instant switch of accounting software?

John The Engineer has the same education as Mr.

Spock, Engineering Science and Mathematics of Gambling:

If Mr. Spock could at computer central all alone,

Upgrade bad code to save a planet from the danger zone.

No help he needed from the low-tech others with no clue,

What Spock can do, The Engineer says: "I can do it too."

If Jesus The Tekton Messiah from 2,000 years ago came today, would the King of the Jews try politics to end the Mort-Gage Death-Gamble (musical chairs with money) and engineer Banking on Earth as in Heaven?

<http://SmartestMan.Ca/bankmath>

I am in the 1997 Guinness Book of Records for 41 most elections contested, now 109 elections offering to restrict bank computers to a pure service charge and abolish the interest charge.

Would the King of the Jews try asking the courts to Order Banking done usury-free as in Heaven?

I asked dozens of courts including 6 Supreme Court 3-judge panels citing K-slabs of death by delay. See <http://SmartestMan.Ca/scc3>

<http://SmartestMan.Ca/poembank> lists my efforts to engineer Banking as in Heaven in verse:
I pointed out they had the might to instantaneously,
Effect repair on our industrial capacity.

It's just like a conveyer belt with people in a line,
Who fall into abyss of Luciferian design.
If you could press a button and cut power to the beast,
The belt would have momentum but you'd lose the very least?
But if you'd waited for a while before you used your might,
You'd lose some extra souls for failing to so expedite.
And if you had refused to press the button to this day,
It would, on you, the blame for every fallen soul we'd lay.

Would the King of "The Poor" try setting up a new Commune for "The Poor?"

In 1984, I financed the LETS (Local Employment-Trading System) time-based software. LETS "Banking on Earth as in Heaven" communes spread around the world. In 2000, my speech at the United Nations Millennium Assembly resulted in the UNILETS Millennium Declaration C6 to Governments to "restructure the global financial architecture" with "an alternative time-based currency." Searches for "anti-poverty system" came up LETS. Searches for "Anti-Poverty Engineer" came up John The Engineer! Also Known As "Banking Systems Engineer," "Bank Fighter Extraordinaire," "Interest Rate Protestor," "Anti-Poverty Engineer," "Great Canadian Gambler," "Taj Professor," "Blackjack King," "KingofthePaupers" <http://SmartestMan.Ca>

I bet no one has more attempts to be the 2nd Coming of Jesus The Tekton, King of the Poor seeking to deliver Banking on Earth as in Heaven than John The Engineer, King of the Paupers.

I'm not too worried about the Powers That Be. With nuclear World War III looming, the world needs some saving with Global Aspirin, ASA, (Amnesty, Security (interest-free credit), Anonymity for any who committed crime "for the money." I forgive the usurers and will let God deal with them.

When the Second Coming of Jesus The Tekton is found to be John The Engineer, ruling the anti-usury good deeds by the Second Messiah were done for frivolity, vexatiousness, or abuse of process will bring the Supreme Court of Canada into historical disrepute.

My upcoming campaign to effect religious persuasion for Banking on Earth as in Heaven will be found at <http://SmartestMan.Ca/manifest.pdf>

Dated at Brantford on Feb 5 2024.

John C. Turmel

Jct: This ends the Reply to the Supreme Court.

1) I contend Jesus' mission was to stop usury taking from the poor to give to the rich and do Banking on Earth no longer as in Hell but as in Heaven.

Now I'm going to make the case no one else has tried to complete Jesus's mission more attempts to engineer Banking on Earth as in Heaven than me. And when I do, what will I be called but the Second Coming to complete the installation of Christ's program for Banking on Earth as in Heaven.
BIG QUESTION SOMEDAY EXPLAIN WHY NO HELP.

Some day you'll have to explain when you read this and decided not to help with the instant fix. Imagine Mr. Spock asking you "Can you help me save your world?" What would you say? "Nut?" Or, at least ask: "How?"

We're at the technology where the debt slavery can be ended instantaneously with the switch of a disk. All the saints had no chance to turn 1/S-i to 1/S globally.

I claim no one else has saved more poor ever. In a smaller orld, Jesus's communes of hundreds or thousands weren't that many. In this era of mass communication, there were far more millions helped by LETS around the whole world. Argentina Creditos, Russian government credits, when nations financial systems crash, the LETS alternative time-based currency has always emerged as back-up. Nothing Else.

MESSIAH WILL DO ON EARTH AS IN HEAVEN

In judgment hereafter or sooner, everyone will be asked:

When the Second Messiah asked for your help to complete the mission of the First Messiah to save our world, what did you do?

When Jesus said to pray to save the planet by turning the Alleys of Earth into Gardens of Eden when "God's will be done on Earth as in Heaven." Mohammed, Nehemiah, Buddha, Buddha, Saints of Hinduism, Sikhism, Rastafarianism, Bahaism, also prescribed the same remedy as Christ! Christ's mission was to start doing something on Earth as in Heaven to save the poor. Christ was not some poor carpenter making furniture in the shop the Magi left him lots of gold, frankincense and myrrh, he and Joseph were "Tektons" (architect/engineer) working in the design room. Jesus The Tekton didn't have access to mass communication as I do but left enough clues in his parable blueprints for me to decode how to fix the world!

I bet no one has done more to complete Jesus's mission to save the poor than John The Engineer none and be the Second Coming of Christ here to finish with mass communication what all the great saints sought to do. Did you expect Jesus The Tekton to come back from 2,000 years ago and finish his mission or some other Tekton Engineer finishing the same mission.

Thoroughly detailing my political, legal, economic campaigns and efforts over 45 years took time. Can't expect me to corroborate my claim without relying on my many saving deeds.

My claim to be the Messiah awaited by 8 religions to do on Earth as in Heaven is less doubtful when you find out:

- John "The Engineer" has the same education as Star Trek's Science Officer Spock who knew the Mathematics of Gambling to figure out the winningest way to go.
- John The "Great Canadian Gambler" has a degree in Electrical Systems Engineering (Applied Science) & was Teaching Assistant of Canada's only Mathematics of Gambling at Carleton University for 4 in Ottawa. AKA "Great Canadian Gambler;" - "TajProfessor" "The Professor" at the Trump Taj Mahal Poker Palace of Rounders fame.
- John Turmel was top of Google in 2000 for "Anti-Poverty Engineer"
- Turmel has broken several Guinness Records.
- Turmel United Nations Declaration to Governments passed.
- Turmel dared take the site "The SmartestMan on Earth" <http://SmartestMan.Ca> for short.

1974 SCIENCE OFFICER SPOCK

Like Star Trek Science Officer Spock who figured the odds of the winningest way to go, in 1976, I graduated Electrical Engineering from Carleton University in Ottawa with 4 more years as Teaching Assistant of Canada's only Mathematics of Gambling course. I am renowned as "Great Canadian Gambler" and "TajProfessor" at the Trump Taj Mahal Poker Palace. No science is more powerful than figuring the odds of the winningest way to

go. Achieving Optimal Strategy is achieving Godhood. Playing the move perfectly is all the Godhood any can achieve.

<http://SmartestMan.Ca/gambler>

<http://SmartestMan.Ca/tajprofessor>

If Mr. Spock could at computer central all alone,
Upgrade bad code to save a planet from the danger zone.
No help he needed from the low-tech others with no clue,
What Spock can do, The Engineer says: "I can do it too."

<http://SmartestMan.Ca/1974>

So when Canada's Mr. Spock says I know the winningest way to go to can save your world, I can turn Hell on Earth into Heaven on Eden! Why the doubt?

Is John The Engineer really the messiah to save our world?
How can you help engineer Heaven."

With no one else anywhere close, I feel confident enough to offer a \$1,000 prize to anyone who finds someone who has done more to complete the mission of Jesus The Tekton Christ to do on Earth as in Heaven.

If I have convincing evidence that John The Tekton Engineer is The Messiah who can deliver Heaven on Eden, how can you not help? I just need you to tell the world: Listen to John The Engineer Tekton. Make the Jesus Program go viral is all you can do. Tell...

ACCORDION SOULS IN HEAVEN

Nov 2023 was the 60th anniversary of my first 1963 concert at St. Vincent Hospital in Ottawa! In the early 1960s, I came fourth in the Canadian Accordion Championships for my age group. In 1981, the Ontario Court of Appeal varied my 21-day sentence for having run games of "Twenty-One" to 100 hours of community service practicing my accordion in old folks homes. It was too tough to stop.

In 1993, I was sentenced to 200 hours for the 1993 Ontario Provincial Police "Project Robin Hood" raid on 28-table Casino Turmel in Ottawa. In 2003, facing a life-sentence for the 7-pound MedPot bust on Parliament Hill, I was sentenced to 100 hours of community service.

INPUT <http://smartestman.ca/turmelaccordion2004.jpg>

Three times my accordion saved me from jail. Am I worried about my Judgment Day with scores of souls in Heaven for whom my accordion provided their last good time on Earth cheering for me?
